With the impending Commonwealth Summit taking place in the UK in April 2018, the Young Planners and Architects of the Commonwealth Association of Planners (CAP, RTPI) and Commonwealth Association of Architects (CAA, RIBA) would like to invite your responses on our joint theme:

**How can young people within the Commonwealth help to deliver Sustainable Development Goal 11, to make cities and human settlements inclusive, safe, resilient and sustainable?**

We welcome responses from every country in the Commonwealth. Here is how to get involved:
- **as an individual** - Write an essay on the question; Show us a successful case study via photograph or video.
- **as a group, society, educational establishment** - Run an event in your establishment; Discuss the question in the context of your country of origin; Develop a manifesto outlining your vision to change the world!
- **as an organisation** - Provide us with insight about how young people are influencing urban thought; Collaborate with us to deliver our webinar and discuss the final outputs.

We will discuss all contributions at an international webinar in March, date to be announced. Your responses will contribute to a joint manifesto on the future of urbanism in the Commonwealth to be launched during CHOGM 2018. We will present our manifesto to the Youth Forum, representing the views of Young People in the Commonwealth.
