AIM OF THE AWARDS

The CAP Awards for Outstanding Planning Achievement in the Commonwealth seek to champion the very best examples of planning practice in the Commonwealth. The Awards aim to:

- Disseminate outstanding planning practice in the Commonwealth particularly where applicable across different Commonwealth countries.
- Demonstrate the valuable role that planners and planning have in the Commonwealth in helping to create resilient and sustainable communities and adequate shelter for all.
- Promote the ways in which the science and art of planning can benefit the public and improve the well-being of society in the Commonwealth and help deliver the UN Sustainable Development goals.

Entries will be accepted from individuals or organisations and must include at least one member of a CAP association (see list of CAP associations at the end of this document). Individuals and organisations may submit more than one entry for different projects provided a separate submission is made for each. Where more than one entry is made for the same project by different parties the first entry will be treated as the entry, multiple entries for the same project for the same award will not be accepted.

Entries must indicate which category of award they are entering. The judges reserve the right to allocate the entry to an alternate category if they feel it is more appropriate.

Your entry description will be used as the entry description for promotional material. Please list all partners you would wish named on the award certificate if successful.

Projects, plans, strategies or other components of the Award entry must be completed or substantially completed at the time of the Awards submission entry.

There is no charge for entries.
CATEGORIES OF AWARDS

Entries are invited for submission in any one of the following categories:

Planning for the Climate Emergency
The climate emergency is a critical global challenge. This award will recognise the role planning and planners can play addressing it within the Commonwealth.

Planning for Cities and Human Settlements/Plan Making in the Commonwealth
To achieve the Sustainable Development Goals plans need to integrate what can often be treated as separate concerns, e.g. biodiversity and transport infrastructure. This award will recognise how plans, plan making, and the delivery of a plan can make Commonwealth cities and human settlements safe, healthy, attractive and more environmentally sustainable.

Planning for Equitable and Inclusive Cities and Human Settlements
Inequalities within and between places are evident across all Commonwealth countries. This award will showcase the work of planners in tackling inequalities, working with seldom-heard groups, and engaging with diversity to build inclusion and cohesion.

Planning in Response to Natural or Technological Disasters
The COVID-19 pandemic has exposed the vulnerability of all countries to sudden threats and disasters, and the contribution that planning can make to health and security. This award will showcase how planning can mitigate disasters and assist recovery.

Planning for the Conservation of the Built and Natural Environment and Cultural Heritage
The cultural and natural heritage of places is often fragile and threatened by growth pressure or conversely by disinvestment. This award will recognise the work of planners in conserving buildings, areas or landscapes, and aiding in their interpretation.
GENERAL CRITERIA

Entries are invited which meet the aims of the Awards.
All entries will be assessed against the general criteria below and entries should address these criteria in the application, noting that not all of these may be applicable.
In addition, entries should also address the specific criteria for their category.

Commonwealth Context

- Demonstrate the significance of the entry to the Commonwealth.
- Demonstrate any transferable principles or elements that may be useful to others in similar situations in the Commonwealth (e.g. small island states, rapidly urbanising countries, extensive rural regions, etc.)

Sustainable Development

- Identify short, medium, and long-term public benefits arising from the project and show how the project has addressed the UN Sustainable Development Goals.

Outcomes and Social Benefit

- Show how the project has, where relevant:
  - Benefited the public and well-being of society as a whole.
  - Impacted the economy.
  - Impacted the environment.
  - Taken into account Indigenous or relevant cultural values.

Planning Content and Skills

- Demonstrate the quality of professional planning work undertaken.
- Show the impact that planners have made to the success of the project and identify whether they have had an effective leadership role and/or acted as a change agent.

Community Engagement and Inclusive Planning

- Show how the design of the project has sought engagement with all key stakeholders - including politicians, community leaders, residents, businesses, women, youth, and other stakeholders - addressed their needs, and sought to promote equality and diversity.

Good Practice

- Show what creative and innovative techniques and processes have been undertaken.
- Show how the approaches undertaken are applicable to other parts of the Commonwealth.
AWARD-SPECIFIC CRITERIA

In addition to assessment against the General Criteria, entries will be assessed against the award-specific criteria for their category, as listed below:

Criteria for Planning for the Climate Emergency Award

- Show how the project helps address the challenge of climate emergency and the path to net zero:
  - through prevention, mitigation or adaptation
  - enhancing resilience

Criteria for Planning for Equitable and Inclusive Cities and Human Settlements Award

- Show how the needs of all the potential users of the project have been taken into account to ensure everyone is able to participate equally, confidently, and independently.
- Show how the project has sought to promote equality and diversity issues including, for example, the specific needs of youth, the aged, women, ethnic groups, the mobility impaired, the poor and disadvantaged communities.

Criteria for Planning in Response to Natural or Technological Disasters Award

- Show how the project has positively responded to issues/challenges or opportunities arising from the COVID-19 pandemic or other disasters or serious challenges
- Show how the project can support or contribute to healthy places/cities

Criteria for Planning for Cities and Human Settlements/Plan Making in the Commonwealth Award

- Show how the project demonstrates the role that integrated plans, plan making, and the delivery of plan that can make to planning for cities and human settlements

Criteria for Planning for the Conservation of the Built and Natural Environment and Cultural Heritage Award

- Show how the project has identified, mobilised, support for and contributed to conservation and to the interpretation of heritage
- Address and manage situations where heritage may be contested or previously ‘hidden’
